Said premises being a portion of the premises described in Certificate of Title #15213.

Article 45. On motion by Alpin Chisholm it was unanimously voted that no action be taken on this article. (Transfer of money for the reduction of taxes).

Article 46. The following Committee was appointed by the Moderator to bring in nominations for a Finance Committee for the ensuing year: Stanley Myers, Everett Morris and Fred Paul, Jr. The following named were nominated and elected as Finance Committee for the ensuing year: Alpin Chisholm, Oliver P. Brown, Charles F. Breen, Jr., Ralph E. Crowell and Miles E. Hooker.

The following report of the Plainville School Planning Committee, was read and accepted. "To the Citizens of Plainville. Within the next year the Town of Plainville will be faced with the necessity of building more class rooms. All available space in the new Elementary School Building is now in use and in September of this year even the Library room will have to be converted to a class room. When the current grade school population reaches the high school level, the present high school building will in no way be adequate. When the present new elementary school building was first put into use in 1951 there were four empty rooms. School population figures used in planning this building in 1949 showed that by 1954 it would be filled to capacity. These figures proved to be correct. These same figures forecast the need of a much larger Junior and Senior High School. It is financially impossible for the Town to construct a new Junior-Senior High School. There would be no State aid for such a project. The alternatives are to either build a substantial addition to the new school building or to the Town Hall building, or go into a Regional Junior-Senior High School set-up. The School Planning Committee is working on the

problem and will have more detailed information in the near future. The townspeople will probably be called on to face this problem sometime next year."

Respectfully submitted,

ALPIN CHISHOLM, Chairman  
LEROY B. WILSON  
SYDNEY J. ANDREWS  
HARVEY C. MORSE  
CLINTON E. BARTON

The following report of the Regional School Planning Committee as of March, 1954, was read and accepted:

"The Regional School Planning Committee reports that the lack of interest shown by the townspeople at the open meeting held in the Elementary School in Plainville last spring, at which time, Mr. Domas of the State School Building Commissioner's office, explained the Regional School set up, and conducted a question and answer period, prompts the Committee to ask to be extended, and that the Moderator appoint a third member to fill the vacancy caused by the resignation of Mr. Roland Wolcott."

EDWARD HEMMINGSEN  
LEROY B. WILSON

The following appointee was made by the Town Moderator:  
To the Town Clerk of Plainville:

"This is to inform you that I have appointed Clarence E. Skinner, Jr., to fill the vacancy on the Regional District School Planning Committee.

CHARLES O. PEASLEY,  
Moderator, Town of Plainville."

The report of the Committee appointed to look into the location of a suitable place for the Highway and Water Department equipment is as follows:

"Under Section B of Article 48, of the 1953 Annual Town Meeting, this committee, consisting of the Selectmen, Chairman of the Water Commissioners and the Superintendent of Streets report that the committee hereby brings in an adverse report, namely, that the committee has discussed various sites

and has not arrived at a definite conclusion as to cost, location, etc., of the proposed building. It recommends having the committee extended until the next Annual Town Meeting when more definite information and costs will be available."

HARRY O. PROAL  
GORDON S. PROAL  
LEROY B. WILSON  
ARTHUR W. WASHBURN

The Committee appointed to look into the advisability of having the Town draw up by-laws to control the installation of water mains, and new streets in any new housing developments, reported as follows:

"That the Town accept the following By-Laws at the next town meeting.

Sec. 1. No street or way shall be accepted by the Town until water mains and adequate drains have been installed and the street brought to proper grade and surfaced as determined by the Board of Selectmen.

Sec. 2. All water extensions in unaccepted streets of the town shall be made at the expense of the owners of the property to be serviced thereby. The department in charge of extending the service in question may, if it deems advisable, require that a deposit be made with the Town Treasurer to cover the estimated cost of such extensions.

GORDON S. PROAL  
LEROY B. WILSON  
RALPH E. CROWELL

Committee

On motion by Alpin Chisholm, and voted to instruct the Selectmen to call a Special Town Meeting, at an early date, to consider and vote on Articles referring to By-Laws, installation of water mains, construction of new streets, installing of water meters in the Town, and for the location of a site for storing of Highway and Water supplies.

Meeting adjourned 11:10 P.M.

ARTHUR W. WASHBURN,  
Town Clerk

**TOWN PHYSICIAN REPORT**

To the Honorable Board of Selectmen:

Gentlemen:

The past year has been a rather uneventful year relative to Welfare care.

There were six (6) office calls, and only one house call during the year.

Medicines were given free in most cases, and no serious cases were noted.

Thanking you for past consideration, I remain.

Respectfully yours,

DR. MAURICE D. GRANT  
Town Physician

**REPORT OF THE SCHOOL COMMITTEE**

To the Citizens of Plainville:

The Plainville Public Schools have been the first to feel the serious effects of our expanding community. The ever increasing enrollment is over crowding available facilities. Where and how to accommodate this increase constitutes a serious problem for the school committee and entire faculty. This problem should resolve itself, at least temporarily, when the Regional Junior-Senior High School begins operation. However, serious study and planning should be considered immediately to insure that our elementary program will be adequate in the future.

After careful survey and based upon estimates received for the repair work, the school committee has inserted a separate article in the warrant for repair of the High School building roof and gutters. This expense is only for those repairs which will prevent deterioration of the building from weather and water damage and extremely necessary if this building is to be used for any purpose in the future.

The school committee revised the teacher salary schedule in this year's budget for the purpose of solving two problems:

1. To discourage "teacher turn-over".
2. To attract the highest possible teacher candidates to Plainville.

In preparing our budget for this year, we have taken into consideration the transfer of our local High School to the Regional program; however, we did not intend to sacrifice any educational advantage to which the High School students are entitled. We intend, instead, to maintain the highest possible standards.

The School Committee wishes to express appreciation to the faculty and employees of the schools of Plainville for their efforts which have contributed to our successful operation the past year.

We wish to acknowledge the interest and cooperation of such groups as the P.T.A., Alumni, Board of Selectmen, Firemen, Highway Department, Police Department and all other groups and individuals who have in any manner helped us in our efforts the past year.

We urge careful study of our budget and the reports of Superintendent Laurence Nourse and Principal Kenneth Sharp.

Respectfully submitted,

EDWARD H. HEMMINGSEN, Chairman

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the Plainville School Committee:

I have the honor of submitting to you my thirty-first annual report and the forty-eighth in the series of reports. The progress of the Plainville Schools in the past year is reported under several main headings. The reports which I have received from staff members are included in this report. Full appreciation of the excellent progress made in many lines of activities, as well as the careful consideration of current and future problems involved in the functioning and growth of the Plainville schools, is urged.

### School Building Accommodations

The acceptance of the Regional High School with Norfolk and Wrentham will furnish superior educational opportunities for grades 7 to 12, Junior and Senior High School. The present plans call for the start of this school in September 1957. Careful study for meeting the school building needs for the next two years is essential. Overcrowding in the Elementary School is probable unless some temporary facilities are found. The long range implications of this new organization of the Plainville Schools is urged by the Plainville School Committee and the Plainville School Planning Committee. In addition to the regular Elementary School needs, opportunities and facilities for kindergarten, special education classes, special facilities such as library and visual education, need to be considered. The following table of school population data gives, as completely as possible, the present picture. With the extensive building developments going on at the present time in Plainville, the estimated school population data cannot be considered final, but only the best estimate possible at the moment. Plans are underway for a school census in these new developments early in the Spring. This will make possible a revision of the plans for September if conditions warrant.

### Plainville Schools Enrollment Data

	Past		Present	Estimate

1952	51	1958	60 "
1953	56	1959	62 "
1954	59	1960	65 "

#### Number of New Pupils Moving to Plainville

July 1, 1954 to September 1, 1954	20
September 1, 1954 to January 1, 1955	11

#### Total School Enrollments on Following Dates

September 1953	386
September 1954	413
December 1954	421

The above data is based on current information. With the extensive building development now under way much larger enrollments are probable.

#### The School Staff

Mr. Kenneth Sharp as Principal of the Plainville Schools is doing outstanding work in that position. The daily administrative problems are met promptly and with efficiency and courtesy. The educational supervisory duties which he has carried on in cooperation with me have been most effective. Further details are given in his report. All teachers in the Plainville High School are teachers with experience. This makes a more effective scholastic program. Mrs. Lucille Zwicker in Grade 8 and Mrs. Phyllis Martin in Grade 1 have both had excellent previous public school experience. The new teachers, starting in their first experience, have all had

excellent professional training and come to their work with outstanding enthusiasm. The whole staff deserves a sincere word of appreciation for their efforts and activities.

### **Salary Schedule**

The new salary schedule adopted by the Plainville School Committee December 20, 1954 will be an aid in attracting and holding good teachers. This schedule goes from \$2800 to \$4250 for teachers with the Bachelor's Degree and \$3000 to \$4450 for teachers with the Master's Degree. The change from the old to the new schedule will be in yearly steps. Approved professional credits are required every three-year period. Partial credit for teaching experience outside of Plainville is allowed in the new schedule.

With the staff of seventeen full-time teachers last year there were six changes in the elementary school and one in the high school. Two left due to marriage and five secured teaching positions with substantial salary increases. Also one additional staff member was added. The new salary schedule should do much to increase the "holding power" for members of the teaching staff.

### **Special Education**

For many years, Massachusetts State laws required any town having ten pupils, three years mentally retarded, to have a special class for the instruction of such pupils. Plainville has never had such a class. The Massachusetts Legislature on May 28, 1954 passed a new Act, Chapter 514, establishing a Division of Special Education in the State. This new Division is in charge of the enforcement of the new and broader plan of Special Education. All pupils judged coming within the possible application of this law shall be given medical examinations by the family physician or school physician and psychological examinations given by qualified examiners employed by the public schools and approved by the Department of Education and the Department of Mental Health. Such pupils are classified into three classifications as set forth in the law quoted below. One-half of the expense of instruction, training, and support of the children in Special Classes will be reimbursed to the town by the Commonwealth. The parent or guardian of any child classified under the provisions of this Act may apply in writing to the Department of Education for a review of such determination. The Plainville

budget has an estimate for the preliminary testing under this program in September 1955. The regulations from the Department of Education and Mental Health have just been received. These give the procedure for the classification of pupils under this Act and the requirements for the conduct of classes and the preparation and training of teachers for such work. The following quotation from the new law gives the essential part of this Act:

"The school committee of every town shall annually ascertain under regulations prescribed by the department and the department of mental health, the number of children retarded in mental development in attendance upon its public schools, or of school age and resident therein. Such children shall be placed in the following classifications: (a) the educable mentally retarded; (b) the trainable mentally retarded; and (c) the custodial mentally retarded. At the beginning of each school year, the committee of every town where there are five or more such children, as determined in accordance with the first sentence of this section, shall, and every town where there are less than five such children may, establish special classes for the instruction of the educable mentally retarded children and for the instruction of the trainable mentally retarded children according to their mental attainments, under regulations prescribed by the department."

### **Phonics At Work**

For the past two years, the Plainville Schools have given extensive study and special emphasis to the teaching of reading. This has been done through encouraging teachers to take extension courses in the teaching of reading, the holding of conferences for all teachers under the leadership of experts in this field, the attendance at regional meetings, and the use of the latest available professional books and magazines dealing with the teaching of reading and the supervision of classroom instruction. There is a popular concept that the modern school does not teach phonics in its program. I am sure anyone who has been in contact with the Plainville Schools will realize that phonics do have a place in our school. The proper use of the phonetic approach to reading is set forth in an excellent bulletin recently published by the Massachusetts Department of Education as a supplement to the Curriculum Guide, "Phonics At Work". The teaching of phonics is only one approach to the mastery of reading, but it is an important one. This new

publication sets forth many principles to guide the teacher in the full use of this aid. Techniques, skills and methods are outlined for the guidance of teachers in each stage: reading readiness, initial reading, rapid progress and extension of efficiency in reading, and refinement of habits, skills, ability and appreciations related to reading. The following principles on the teaching of phonics are based upon the publication, "Principles for Developing Independent Recognition" from the Forty-Eighth Yearbook of the National Society for the Study of Education.

1. Readiness for the application of phonics as a method of word attack required well-defined skills; the amount of application is determined by the degree of readiness.
2. Beginning steps in the teaching of reading emphasize through units, phrases and words, so that children acquire the concept of reading as gaining ideas. The teaching of phonics should be considered as one part of the whole word attack program, together with the use of context clues and structural analysis skills.
3. Pupils are taught particular phonetic and structural elements only after they have appeared several times in their reading vocabulary, and when the generalizations developed will be used extensively in increasing the reading vocabulary.
4. Sounds for letters and combinations of letters are learned, practiced, and applied as recognizable elements in the pronunciation of entire words, not as isolated, explosive sounds.
5. In the application of any or all of the principles, flexibility of word attack is encouraged, so that the main characteristic of the ability to use phonics becomes that of the selection of techniques suitable to the immediate reading situation.

### **Extension Courses for Teachers**

For the second consecutive year, the Plainville Schools with the Norton schools have conducted a Harvard-Boston University Extension Course for the inservice training of teachers. "Human Relations in the Classroom" is the topic of the Course taught this year by Dr. Dugald S. Arbuckle of Boston University. Fifty-eight teachers are enrolled; nineteen

from Norton, nine from Plainville, ten from Easton and the others from surrounding towns. This is a general course that is valuable and helpful for teachers whether in the primary school, grammar school or high school. It is designed to aid teachers in helping children to become emotionally mature during their school days. The conflicts and problems of children as they are seen through the eyes of the teacher and the child are discussed. The emotional climate affects all children for good and for ill and the teacher is a vital element in the creation of this atmosphere. The optimum learning cannot occur unless the classroom atmosphere is conducive to learning and the mental health of teachers is thus of supreme importance. The course is designed to help teachers understand better the behavior of boys and girls and their own reaction to this behavior. Day by day experiences of the teacher in the classroom are the basis of study in this course. Several teachers are taking other professional courses at nearby colleges.

### **PLAINVILLE HIGH AND ELEMENTARY SCHOOLS**

**Mr. Kenneth L. Sharp, Principal**

The annual Norton-Plainville Pre-School Conference was this year held in Plainville. The topic "The Teachers' role in a Mental Health Program" was discussed by Dr. Dugald S. Arbuckle, School of Education Boston University. A movie "Skippy and the 3 R's" and group discussions by the teachers completed what was an informative, purposeful day. These conferences have proved a valuable part of the school year. Therefore, plans are being made to continue them.

The faculties of both schools have shown a very definite desire to keep abreast of the educational field. During the first term, all of the high school teachers and five from the elementary school were enrolled in extension courses. All have shown evidence of professional reading. To foster and encourage this, several professional magazines are now provided for the use of the staff.

During the spring term the Commercial Department, under the direction of Mr. Valaitis, plans to initiate a student school-work program. It is planned to place the better pupils in actual office jobs for a period of two weeks

without pay. Evaluation of the work done will help the school to prepare pupils more effectively for this work and his plan will give the students actual work experience.

National Education Week Programs this year were successful. During the week, over two hundred parents and friends visited school, either during regular session or during the Open House at the P.T.A. meeting. Several special programs prepared by individual teachers were well received and again showed the desirable initiative of the staff members.

The schools were pleased to receive a new phonograph from the P.T.A. through one of their projects. This machine is being used in music appreciation classes, in developing rhythm bands and for entertainment.

One of the most significant phases of our educational program was the Adult Education Classes which were completed in May 1954. Sixty-three people took advantage of six classes in Ceramics, Furniture Refinishing, Public Speaking, Photography, Rug Braiding and Typing. The program was self-supporting. Last fall an attempt was made to organize adult classes again. The only interest shown was in Driver Training; so a class of eighteen enrolled and completed the course. It is hoped that sufficient interest will be shown in early 1955 to warrant other courses.

In the spring of 1954, two of the better programs which involved all pupils were the Art Exhibit and the Music Festival. Both drew many praises from the public and were a credit to the students, teachers and supervisors who worked during the year to make these activities possible.

Twenty-one Seniors were graduated in June 1954. Mr. Herman V. LaMark, Personnel Director of Swank, Inc., was the principal speaker; with Nancy Wilson giving the Salutatory and Marilyn Bowmar the Valedictory.

Considerable time has been spent over the past year in supervisory work. This has included classroom visitation, teacher conferences, consideration of textbook additions and changes, discussions on yearly plans and other necessary assistance to teachers. Perhaps two of the more important results of this cooperative work have been the study and

writing of a Curriculum guide in Phonics, Word Analysis and Arithmetic for Grades one through three, plus a rather comprehensive study of the Reading program in the Elementary School.

The first of these set forth suggested standards for teachers to follow so that pupils in the same grade but with different teachers would follow the same course and so that the work of all teachers would not overlap unnecessarily.

The second concerning Reading was an attempt by the staff to discover reading difficulties and to remedy them. Intelligence and Reading tests were given and recorded. Charts indicating factors that might possibly affect a child's reading ability were made and individual pupils were considered on it. As a result many children received individual help with their difficulties, changes were made in the reading material and the general emphasis on the subject was strengthened. It was gratifying to note that the grades tested scored above the national norms set by the tests.

The Plainville teaching staff should be commended for excellent professional spirit and a sincere desire to be cooperative in all phases of their work. It is a pleasure to be working with such a group.

## ART

### Louis B. Spier, Supervisor

This is my tenth annual report. During the past decade the schools of Plainville have shown growth in many ways—the pupil enrollment has increased, the teaching staff has been enlarged, a fine new elementary school has been built and the high school has taken over the remodelled Town Hall. Being a humble person, I cannot boastfully say that the Art program has grown too, but I sincerely hope it has.

The pupils continue to enjoy the variety of media provided for art expression, done creatively and under directed observation to encourage more freedom of expression and to develop an appreciation for the beautiful. The International Art Exchange Program, the American Humane Education Society Animal Poster Contest and the American Legion Auxilliary Poppy Day Poster Contest have been continued.

The theme of the Eastern Arts convention held in New York City March 31 through April 3 was Sources and Resources for Art Education. It not only made one more sensitive to potential resources for art education in one's immediate environment but also gave one a sense of responsibility for improving the quality of such resources so that the creative art activity in our classrooms will evolve from a greater depth and breadth of experience, both social and aesthetic.

In October, an Eastern Art Association loan of color slides on "Myself" comprised of photographs and self-portraits in a variety of media by children, four to eighteen years of age, from different countries, was shown from grade three up through the eighth grade. In December, a group of Madonna pictures mostly by Italian masters and some by Flemish and Spanish artists was borrowed from the Norton Schools and shown to our pupils. These color reproductions are unusually fine.

The additional half-day which was added to the art schedule last September has been appreciated both by the elementary teachers and me. The high school mechanical drawing class has benefited by having two periods per week instead of one. It has provided adequate time for art lessons in the fourth grade up through the eighth on a two week basis.

My sincere thanks to all who have shown such a splendid spirit of cooperation, loyalty and friendship.

## MUSIC

**Nahum P. Gillespie, Supervisor**

**Junior-Senior High School**

I herewith submit my annual report as Supervisor of Music in the Senior and Junior High Schools of Plainville.

During the past year the students have participated in various school functions. During the month of May in combination with the Elementary grades an All School Music Festival was presented to a capacity audience. At this occasion in addition to the general choruses, certain promising singers were given an opportunity to develop their talents.

The next musical event was chaperoning 30 students into Symphony Hall, Boston, to attend one of the famous Pop Concerts under the baton of Arthur Fiedler. Proof that interest was aroused is the fact that a larger number has expressed a desire to attend this spring.

For the graduation exercises of the Eighth grade last June, I combined the voices of the entire 6th, 7th and 8th grades, numbering some 125 voices, with inspiring results.

The most recent event was the Christmas Pageant when the 5th, 6th, 7th and 8th grades were heard in selections, together with the High School Girls' Glee Club of twenty voices in special Christmas numbers. The group was ably accompanied by Mrs. John Andrews.

Under a new item, I take pleasure in announcing that for the first time Plainville High School will be represented at the Massachusetts Music Educators Festival to be held in Symphony Hall, Boston, on the evening of February 25th. There will be an All State Band, Chorus and Orchestra Concert. From our Plainville High School, we are sending Helene McGowan from the Junior Class, who will have to memorize fifteen difficult numbers and sing them in a chorus of 400 voices with a famous New York Musical Director. This should prove an inspiring and educational event for this young musician.

I hope the near future brings the development of instruction in musical instruments, with the formation of a School Orchestra in mind. I feel that a broadening field in music is the best way to hold, and increase musical interest among the student body.

## MUSIC

### Harriet F. Washburn, Supervisor Primary School

The music in the first five grades is making good progress, with the wonderful cooperation of teachers and children alike. Their enthusiasm and enjoyment of the subject makes my task one of great satisfaction.

Last January, a Glee Club was formed of boys who had good voices and who like to sing. We meet every Thursday morning for fifteen minutes and in that time have accomplished a tremendous amount of work, the results of which were heard when they sang at the Music Festival in May. At

that time every child in the first five grades took part in the program which was enthusiastically received by a capacity audience of parents and friends. They also sang beautifully at the Christmas program. These next terms I hope to have them doing two-part singing.

Since we have more classes, my day has been lengthened to a full one, with our regular program of rote singing, rhythm band, folk dancing, listening, reading and simple theory—enough to give them a foundation for more learning in the upper grades and above all a love for good music.

My thanks to Mr. Sharp for his ever ready help and to Mr. Nourse for his understanding and generosity in the Music Department.

### **SCHOOL PHYSICIAN**

**Dr. John T. Cotter**

The examination of students scheduled to be seen this year is under way and nearly completed. The general health of the students is good. No student who applied was refused the privilege of participating in athletic activities because of physical examination.

No serious epidemics were encountered during the past year. In the spring, a number of children lost time because of mumps, but this was a minor epidemic.

The diphtheria-tetanus-pertussis immunization clinic was held in the spring and was fairly well attended. It will be repeated in the spring of 1955.

The new system of examining only certain classes each year is working out well. It gives the physician a chance to be more thorough in his search for disease.

I wish to thank all who have aided in the work of caring for the students of the Plainville Schools.

### **SCHOOL NURSE**

**Janet Claudy, R.N.**

Pupils in grades 1, 4, 7, 9 and 11 are to be examined by the school doctor this year. These examinations are in progress at the present. All pupils have been weighed and measured. Hearing and vision tests will be given to all stu-

dents in grades 1, 3, 5, 7, 9 and 11. Parents of pupils found to have any physical abnormalities will be notified at the conclusion of various tests.

Members of the senior class, the lunch room staff and all new personnel received chest X-rays in November 1954.

Three immunization clinics were held during the spring months in the Health Unit at the elementary school. Attendance at these was excellent. Dr. Cotter, school physician, administered inoculations of a triple antigen to all children of Plainville who were eligible. This antigen protects against diphtheria, tetanus and whooping cough. It is supplied by the State and administered free of charge.

A dental hygienist from the Massachusetts Department of Public Health was present in January 1954 to examine children in the first six grades.

A Spring-time registration was held during May 1954 for all prospective first-graders. At this time candidates for the first grade were enrolled and both parents and children were introduced to the school system and to various school officials. A similar registration is planned for this Spring.

May I take this opportunity to thank Dr. Cotter, Mr. Nourse, Mr. Sharp and all school personnel for the interest and cooperation they have shown and for the assistance they have given to the school health program.

### Closing

It has been a pleasure to work with the Plainville School Committee and with the Norfolk-Plainville-Wrentham Regional Committee during the busy and eventful past year. The conscientious and hard work of both of these committees in meeting their civic responsibility is, I am sure, recognized by all of my fellow citizens.

Respectfully submitted,

LAURENCE G. NOURSE

Superintendent

**REPORT OF SANITATION INSPECTOR**

To the Board of Health  
Plainville, Mass.

Gentlemen:

During the year 1954, two complete surveys were made of the eating and drinking establishments in town.

Bacteria counts of utensils were made, also check inspections. Conditions were found very good in general.

Analysis was made quarterly of milk and cream sold in town. Recheck samples were taken of any unsatisfactory results and conditions corrected.

Respectfully submitted,

PUTNAM STEELE

**REPORT OF THE FIRE DEPARTMENT**

---

To the Honorable Board of Selectmen:

Gentlemen:

In submitting our report for the year ending December 31, 1954, we would like to call to your attention, that during the year, with the help of the members of our department, we were able to make over the 1929 Ford truck into a good looking and more practical truck for Forest Fire Service. Also with the help of the Plainville Tool Company and the Whiting & Davis Company, we have almost completed the Chevrolet Truck, which was given us last year. This truck is equipped with a midship pump, either to pump direct or from draft. It has a water capacity of 600 gallons, which will be very practical for the outlying district, as well as for Forest Fire Service. We wish to thank the boys for their help on these two trucks without any compensation.

During the year this department, as well as the town, lost a very valuable man, Ex-Chief C. F. Henrich. He joined the department in 1911, became chief from 1937 until 1950. From 1950 to 1954 he was a member of the Board of Fire Engineers. This department will always respect Chris, and long remember him as Chief. His vacancy was filled with the appointment of Clarence Skinner, Jr.

A Mutual Aid Pack, consisting of eight towns and city, was formed during 1954. This department had eight runs out of town, in order that the men become acquainted with the participating towns and city, for the purpose of each department knowing what the other departments had to offer in equipment and men. This also gave us a good idea of just how long it would take to reach each town or city, should it ever be necessary to call for help in case of a serious fire.

We answered 53 box calls, 12 still alarms and a great many calls to investigate. As the town is growing so fast and the demands are getting greater, we have inserted an article in the Town Warrant, to appoint a committee to look into advisability of having a permanent department.

In October, we held a fire drill at all school buildings, made inspections, a detail report of which was sent to the selectman. The results of the drills are as follows:

High School	88 pupils	45 seconds-average per pupil	.0051
Elementary			
School	326 pupils	80 seconds-average per pupil	.0025
Dominican			
Academy	180-pupils	65 seconds-average per pupil	.0035

The Board of Fire Engineers feel that the three articles which we have placed in the Town Warrant should be given a great deal of consideration, by all.

We again wish to thank the town officials and the residents of the town for their help during the year, and also to invite one and all to visit our station and look over our equipment. We should also suggest the new home owners learn their box number, in order to save time if necessary to call the station. Also persons calling the department in an emergency, make it known, to the operator, that they want the Plainville Fire Dept., as the operators being in North Attleboro, would ring the No. Attleboro Fire Dept.

Respectfully submitted,

ALTON E. FRENCH  
CHESTER A. MEYER  
CLARENCE E. SKINNER, JR.

### REPORT OF WATER COMMISSIONERS

To the Honorable Board of Selectmen:

Gentlemen:

The year 1954 has been the busiest in the history of the Water Department.

During the year 143 new services were installed. Approximately 100 of these were in new developments and the expense of installation was borne by the developers. Seven old services were renewed.

The hydrant at the corner of Pleasant St. and South St. has been replaced because the old one was badly damaged. Another broken hydrant on Wades Hill, the result of an automobile accident, was covered by insurance and has been replaced at no cost to the town.

#### Water Extensions

The School St. project was completed with 1900' of 6" cast iron water mains, four (4) hydrants and two (2) services installed.

During the year the town purchased from the North Attleboro Water Department a total of 55,937,750 gallons of water at a cost of \$4,315.02.

**Payments made:**

March 1, 1954—Bal. of 1953 bill	\$ 652.08

July 28, 1954	40.00	
December 31, 1954	2,257.74	
	<hr/>	
		\$5,047.10

The metering program is progressing satisfactorily and complete installation of 500 water meters by April 1, 1955, should be expected. It is the opinion of the Water Commissioners that by repairing some of the old meters an increase in the active inventory by approximately 50 meters could be made. This would give a good operating supply to help take care of future building.

For an example of increased revenue which can be expected when all meters are installed we wish to cite the following: One of the water commissioners had a meter installed in July of 1954; by December of 1954 the meter

read 47,000 gallons—7,000 gallons over the yearly allowance in only six months. This consumption was for a family of five with no watering of lawns, etc.—just normal usage. In view of this, we are even more optimistic for the financial well-being of the water department after metering than ever before.

**REPORT OF THE POLICE DEPARTMENT**

To the Honorable Board of Selectmen:

Gentlemen:

I hereby present our annual report of the Police Department for the year ending December 31, 1954:

During the year 14 arrests were made. Crime against public order 14.

Complaints and investigations, 140.

Papers served for out of town departments—Summons 40, Warrants 1 and no capias.

Motor vehicle accidents for the year, 65. Persons injured, 32.

In submitting this report, I wish to thank your Board and members of this department for the cooperation shown during the year 1954.

**BOARD OF HEALTH**

Your Board of Health during the year of 1954 has had the usual number of complaints, which have been adjusted satisfactorily.

Our Sanitation Inspector, Mr. Putnam Steele, has done a very excellent job in his inspection of all eating establishments in the town, together with his quarterly inspection of all milk and cream sold in the town.

The location of septic tanks and drain fields on all lots on the five sub-divisions now in operation, have been regularly inspected and are subject to control by this Board.

Throughout the year several cases of unsanitary living conditions have been brought to the Board's attention, and upon inspection, were condemned and ordered corrected immediately.

The Town Dump has been kept in excellent condition by the Highway Department, and the dumping of logs, stumps, trees, etc., and other nuisances of the dump has been stopped.

The following list of diseases are on file at this office:

Dog Bite	8
German Measles	42
Measles	13
Scarlet Fever	2
Mumps	49
Whooping cough	7

**REPORT OF PARK COMMISSIONERS**

To the Honorable Board of Selectmen:

Gentlemen:

This has been a most successful year for the Town Park which officially opened June 28th, and closed September 4th. The total attendance for the ten week period was 9824 with an average daily of 140. This does not include attendance after 5 p.m. when the Park is not under supervision.

This year the Park was under the supervision of Mr. Morton Milesky and Mr. Kenneth Sharpe. This is the first year we have had two supervisors and we feel that the extra coverage is well worthwhile, especially as we were able to arrange the schedule to include Sundays.

Mr. Milesky had charge of the swimming pool and once again Red Cross swimming lessons were offered to the youngsters of Plainville. One hundred and forty-eight children registered in the four classes. These classes ran for seven weeks.

Mr. Sharpe supervised a successful athletic program. This included baseball, softball, volleyball, basketball, horseshoes, badminton and deck tennis.

We were most fortunate once more to have the Fourth of July Committee donate their proceeds to the Park. This year they had sixty-eight feet of six foot fence installed around the area reserved for small children, purchased a twenty foot slide, a twelve foot slide and an outdoor basketball outfit.

For the first time in many years Band Concerts were held in the Park. These were sponsored by the Fourth of July Committee.

Due to the ever increasing attendance through the summer months the Board feels the swimming pool should be widened and that a new bath house should be erected in the near future.

We wish to express our appreciation to the many people who cooperated with this Board throughout the summer.

We especially wish to thank the Guisti Construction Co., Milton Cash, Louis Morrell, W. H. Riley Co., Robert Monroe, The Fire Dept., Police Dept., Everett Skinner, the Fourth of July Committee and your Board for the assistance given us.

## REPORT OF TRUSTEES OF PUBLIC LIBRARY

To the Honorable Board of Selectmen:

Gentlemen:

The annual report of the trustees of the public library for the year ending December 31, 1954 is one of progress. Although the library building is in poor repair and the book stock is even poorer both in quality and quantity, plans are being formulated for many improvements. During December the library was favored by a visit from Miss Alice Cahill, Field Supervisor of the Division of Library Service of the Massachusetts Department of Education. In her report she advises that we engage the services of a qualified person to survey our local situation and make specific recommendations regarding our physical plant, i.e., to renovate the present structure or to build a new library. In the meantime the town is growing and our citizens, particularly our children, are in need of good library service. Much can be done immediately to improve the present facilities. In the latest purchase of books we included the Columbia Encyclopedia in one volume, the 1955 World Almanac, a good collegiate dictionary and the Hammond Ambassador atlas. With these books most school reference questions can be answered. In the spring the collection will be classified and catalogued and a card index established. As we discard wornout books, the state will lend us collections of books to fill the gaps until funds are available to us for further purchases. A borrowers' file has been established by Violet Reynolds, the librarian, to determine the extent of the use of the library.

In our next annual report we intend to place the entire library problem before the townspeople. By then we hope to be able to answer intelligently and accurately the many questions we all have concerning library service in Plainville. In the meantime we shall rely on the press to keep you informed of further developments as they occur.

Statistics for the year are as follows:

Circulation	1580 Volumes
Appropriation	\$600.00
Expenditures:	
Violet Reynolds, librarian	\$152.00
Elmer Pease, janitor	152.00

Clerical work	10.00
Purchase of books	228.39
Fuel	25.00
Worcester County Electric Co.	11.00
Miscellaneous	21.38
	<hr/>
Expenditures	599.77
	<hr/>
Balance	\$ .23

In concluding our report we would like to note the retirement from the board of Arthur W. Washburn after many years of faithful service.

Respectfully submitted,

BARBARA P. FLUCK  
ALICE M. PEASE

### AUDITOR'S REPORT

To the Honorable Board of Selectmen:

Gentlemen:

This is to certify that the books of the Treasurer, Collector of Taxes, and Water Department have been examined by me and found correct.

All amounts collected and paid to the Treasurer by the Tax Collector and Water Department agree with his statements, as well as all uncollected amounts.

The books of the Town Clerk, Sealer of Weights and Measures, Milk Inspector, School Lunch and Athletic Funds, Police Department and Library have been examined and they also agree with the records of the Treasurer.

Respectfully submitted,

LAWRENCE H. CARPENTER,  
Town Auditor

**REPORT OF THE BOARD OF SELECTMEN**

The Board of Selectmen have been confronted with many new problems resulting from the rapid growth of the Town. Many extra meetings were held by the Board, sometimes as many as four in a week, to discuss with contractors and engineers of the sub-divisions, the relocation of streets, increased size of lots, additional drainage, installation of water and hydrants.

The hurricanes, Carol and Edna, brought many problems. Through the fine cooperation of the various town departments, and the townspeople, the highways of the town were open to traffic in a few hours. We wish to thank Cooper's Appliance Service for the two-way radio communication during the emergency. The greater portion of the expense of these two hurricanes will be reimburseable by the Commonwealth.

In the Center of Town, the following streets received surface treatment; Bugbee, Grove, Lincoln, Cottage, Pleasant and Fletcher.

The outlying districts were surfaced under Chapter 81, and these include Hancock, Cross, High, Warren, Walnut, Shepard, George, Berry, Hillside Road and School Street. On many of these streets brush was cut back. The dirt roads were graveled and scraped throughout the year.

Under Chapter 90, the cracks on Taunton Street were filled. On Route #106, two thousand feet was resurfaced. On East Bacon Street four hundred feet of complete reconstruction and drainage was repaired.

A complete drainage system was installed on West Bacon Street for nine hundred fifty feet southerly from Warren Street.

We are again asking an appropriation to continue the drainage program.

The following sidewalks were completed this year. The southerly and easterly side of the Methodist Church, about

440 feet; the westerly side of South Street to the North Attleboro line, two hundred sixty-five feet; the northerly side of Pleasant Street from the Cloutier property westerly to South Street, three hundred feet; East Bacon Street from Potter Avenue to Vernon Young Drive about four hundred and fifty feet.

We are again asking for another appropriation for sidewalk extensions.

The Old Cemetery on West Bacon Street was cleared of all brush and undergrowth by the Highway Department. Some dead trees in the rear were removed and burned. The stone wall was repaired.

A large part of the grounds have been harrowed and will be levelled off and reseeded next spring. A further appropriation will be necessary to continue the upkeep of this cemetery.

The Board acknowledges the fine cooperation of the various Town Departments during the past year.

Respectfully submitted,

ARTHUR W. WASHBURN

**REPORT OF NORFOLK, PLAINVILLE, WRENTHAM  
REGIONAL DISTRICT SCHOOL COMMITTEE**

The following report summarizes the work of the committee from November 15th to the time the Town Reports are published.

On November 23rd the committee met together with the superintendents of school from the three towns and Mr. Simeon Domas of the Massachusetts School Building Assistance Commission for purposes of organization and instruction. Officers were elected as follows: Hugh McC. Marshall, chairman; Edward Hemmingsen, vice-chairman; Seth Armen, treasurer; Miss Bethyl Davis, secretary.

It was decided to hold regular meetings on the first and third Thursdays of the month at the Wrentham High School at 7 p.m. Also a meeting was arranged by Mr. Domas to be held in Mr. John Marshall's office during the week of November 29th. This was a building needs conference.

Mr. Domas outlined steps to be followed, reports and work to be done in order to expedite the building of the school. These covered such subjects as educational specifications, planning costs, educational consultant, bonding, selection of the superintendent, projected pupil population, school site, name of school, etc.

The building needs conference was held in Boston with Mr. John Marshall and Mr. Domas who instructed the committee on the proper procedures to be followed in the handling of the above subjects as well as the choice of an architect and financial matters.

At our December 2nd meeting the building needs were reviewed and our organization set up. Arrangements were made to visit and inspect sites and some recently built school such as the Mansfield H. S. The committee engaged a surveyor to furnish us with the necessary information regarding land.

The three superintendents of school, Messrs. Roy, Nourse and Delaney were engaged as consultants to prepare educational specifications and school requirements.

Plans were made for choosing a name for the school and a Regional School seal.

On December 5th the committee visited the Vogel School site in Wrentham and two other suggested sites. Sub-committees were appointed to call on owners of land abutting the sites and to call on legal council. Considerable time was devoted to the study of maps and the discussion of the desirable location.

On December 9th the committee discussed the earliest possible date for the opening of school. The hope exists that this may be possible in September 1956 but it was decided that the only fair time to open such a school would be at the beginning of a school year. Other matters discussed were dates for inspection of school sites by the School Building Assistance Commission, choice of a clerk of the works to supervise construction, preparation of maps and surveying work and visits to other schools to obtain proper background.

On December 16th the committee studied maps prepared by Mr. John Warren, our surveyor, of the Vogel School property and other maps of the town. Details pertaining to the submission of our planning budget were discussed and agreed upon. The correspondence received from architects who made inquiries were given to the members of the committee for study.

On January 6th the work on Form P for our planning budget was completed. Arrangements were made for banking facilities. The need for an operating budget for the committee was explained and the details agreed upon.

The superintendents of school submitted a very complete report on educational specifications covering all phases of proposed studies in the Regional School. This was discussed, approved and accepted and the superintendents were requested to proceed with the work of estimating school facilities necessary to carry out the educational program.

On January 13th a full discussion was held on correspondence and brochures submitted by architects. The committee voted on which architects were to be interviewed and also voted on the engaging of legal council. The proper time

for engagement of a Regional School superintendent was discussed as well as the results of visits to proposed school sites.

Between meetings various members of the committee have met to further study sites and the work of the surveyor.

Meetings have been held on January 20th, 26th, 27th and 28th, to interview architects and hear reports. These will be followed by visits to schools designed by these architects one of whom we expect to choose in the near future.

The committee has been complimented by the Massachusetts School Building Assistance Commission for the progress it has made since the voting of the Region by the three towns. We, in turn, are grateful for the help given us by all state officials and citizens of the three towns and hope to carry on this work as fast as possible consistent with sound planning and construction. Progress reports will be published in local papers as frequently as possible.

Respectfully submitted,

HUGH McC. MARSHALL, Chairman

EDWARD HEMMINGSEN, Vice-Chairman

SETH ARMEN, Treasurer
